Summary

Web Developer with **2+ years** of commercial experience delivering responsive websites and high-converting landing pages. Skilled in **HTML, SCSS, JavaScript, PHP, React,** and modern development tools, with **working knowledge of WordPress**. Strong focus on performance, maintainability, and clean architecture. Experienced in building reusable front-end components, optimizing development workflows, and collaborating with marketing teams to launch successful digital campaigns. Always focused on writing quality code, solving business problems, and continuously expanding my technical expertise.

Professional Experience

HTML Developer, Alex Yanovsky Higher School of Management 04.2024 – 12.2025 | Remote
